

Pooling Luxembourg's knowledge on inclusive finance

Luxembourg, centre of excellence in the field of inclusive finance

Inclusive finance aims to increase access to low-cost and responsible financial services for vulnerable people, with the objective to tackle poverty and support economic empowerment.

The Government of Luxembourg understood the importance of financial inclusion for sustainable development early on and made it a cross-sectoral part of its international development programme. The Government was a key figure in setting up the Inclusive Finance Network Luxembourg Asbl (InFiNe.lu) and granted it a multi-annual support plan.
